Intro

I created this template for presentation slides under the (unofficial) theme of the UTD. Here is the set of files to be used:

slides.tex	main file for text
beamerthemeUTD.sty	the style file for UTD beamer
UTDbg.jpg	background image

To generate the pdf file of this slide, use `pdflatex slides.tex` twice.

Blocks

Exercise block

Some exercise

Definition block

Some definition

Itemize and enumerate

Items:

- Item 1
- Item 2

Lists:

1. test1
2. test2

Adding codes

Print codes with Verbatim. This works fine, but can be improved by migrating to knitr or Rmarkdown.

```
1 > print("Hello world")
2 [1] "Hello world"
```
